

## SUMMARY

Enthusiastic and detail-oriented Computer Science student with a strong foundation in web development, particularly in React and JavaScript. Proficient in building dynamic and responsive web applications, with hands-on experience in front-end technologies and frameworks. Adept at translating client requirements into functional and visually appealing user interfaces. Eager to leverage my technical skills and passion for coding in a challenging and innovative environment to contribute to impactful projects.

## EDUCATION

### AJAY KUMAR GARG ENG. COLLEGE

Bachelor of Technology  
2023 – 2027

- 1st semester SGPA - 8.0

### DELHI PUBLIC SCHOOL , LUCKNOW

- 10 High-School (2020) : 92%
- 12 Intermediate (2022) : 85%

## SKILLS

- React
- JavaScript
- python
- HTML & CSS
- Tailwind
- OOPS
- Data structures & Algorithms
- OAuth

## HOBBIES

- Reading
- Coding
- Badminton
- Gaming

## PROJECTS

### WEATHER APP

- Developed a dynamic weather application using React for front-end development
- Enhanced user experience with error handling and input validation to manage API response errors and invalid location entries
- Integrated visualcrossing weather API to fetch real-time weather data based on user input

### TO-DO APP

- Developed a to-do application using React to manage tasks with CRUD (Create, Read, Update, Delete) functionality
- Designed a responsive UI with Material-UI or custom CSS to ensure a user-friendly experience across devices
- Incorporated form validation to ensure accurate task input and user feedback

### Pokemon Guessing Game

- Developed a Pokemon Guessing game using react
- Uses PokeApi to fetch images of pokemon and asks you to guess them based on their silhouette
